

RASC  
Kingston Centre  
Meeting  
2018-05-10

19:00-21:00  
Stirling Hall Theatre A

# Agenda

- Welcome
- Introductions
- Upcoming Events
- Break
- Observing reports

# Board of Directors

President: Richard Wagner

Vice-President: Kevin Kell

Secretary: Kim Hay

Treasurer: Susan Gagnon

Librarian: David Maguire

Webmaster: Walter MacDonald

John Crossen

1945-2018

# Upcoming Events

- 12 May – 2100 KAON
- 12 May – Science Rendezvous

# In the Sky

- 8 May – Jupiter at opposition
- 15 May – New Moon
- 16 & 17 May – crescent Moon near Venus
- 21 May – Moon close to Regulus
- 23 May – first day of spring
- 29 May – Full Moon

Hank  
ISS Transit Page

A starry night sky with a prominent blue nebula in the center. The nebula is a large, glowing cloud of gas and dust, with a bright yellow star at its core. The surrounding sky is filled with numerous smaller stars of various colors, including white, yellow, and blue. The overall scene is a beautiful representation of a star-forming region.

Kevin  
SCGO Gets a Roof

A starry night sky with a prominent blue nebula in the center. The text "Secret Assignations Break" is overlaid in yellow.

# Secret Assignations Break

# Observing Reports

The background of the slide is a deep black night sky filled with numerous stars of varying brightness. In the center-right portion of the image, there is a large, diffuse, glowing blue nebula or star cluster. The blue color is most intense in the center and fades towards the edges. The stars are scattered throughout the field, with some appearing as sharp points of light and others as soft, out-of-focus spots.

- Brian
- Steve
- Malcolm
- Rick

# Consider Some Outreach

- 12 May – Science Rendezvous

# Stay in Touch

- [kingston.rasc.ca](http://kingston.rasc.ca)
- [lists.rasc.ca/mailman/listinfo/kingstonrasc](mailto:lists.rasc.ca/mailman/listinfo/kingstonrasc)

# Meeting Close

- if you have any suggestions or ideas for the meetings or the Centre please let me know
  - 613-359-5139
  - Rick dot Wagner at bell dot net
- next meeting – 14 Jun

Clear skies
